DETAILED ACTION

Claims

1. Claims 8 and 13 have been amended. Claims 1-7 have been previously cancelled.

Drawings

2. The drawing correction filed February 24, 2004 is approved by the Examiner.

Allowable Subject Matter

3. Claims 8-14 are allowed.
4. The following is an examiner's statement of reasons for allowance: The Examiner agrees with Applicant's arguments. Regarding claim 8, the prior art fails to teach or fairly suggest, in addition to the accompanying features of the claims, an electrostatic corrector for eliminating chromatic aberration of particle lenses comprising two corrector pieces positioned along a straight optical axis having quadrupole fields rotatable 90° about the optical axis, with rotation able to occur so that a first astigmatic intermediate image of a first section lies in a first corrector piece and a second astigmatic intermediate image perpendicular thereto, of a second section, lies in a second corrector piece, with each of the two corrector pieces consisting of three electrical quadrupole fields. Claims 9-14 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2881
